

SUMMARY

Flutter Developer with experience in Flutter, Dart, GetX, REST APIs, Firebase, MVC Architecture, SharedPreferences, Git/GitHub, and Play Store deployment. Proficient in developing responsive mobile applications, API integration, state management, performance etc.

EXPERIENCE

BitmaxTechnology (Flutter Developer)

Sep:2025–PRESENT

- Developed cross-platform mobile applications using Flutter and Dart.
- Built responsive and reusable UI components following modern design practices.
- Integrated REST APIs and managed application state using GetX and MVC architecture.
- Optimized app performance, fixed bugs, and enhanced overall user experience.

BM Digital Utilization (Flutter Developer Intern)

June 2, 2025 – September 5, 2025

- Developed and maintained cross-platform mobile applications using Flutter and Dart.
- Designed and implemented responsive, user-friendly UI screens for Android and iOS platforms.
- Integrated RESTful APIs and managed application data efficiently for seamless functionality.

PROJECTS

RideWithGuide App|April 2026–Present

- Developed and launched Ride With Guide, a cross-platform Flutter application connecting tourists with verified rider-guides across 8+ cities through dedicated Tourist and Rider apps.
- Built responsive and user-friendly mobile interfaces using Flutter, GetX, and MVC architecture for booking management, rider dashboards, profile management, and trip tracking.
- Integrated REST APIs, JWT authentication, Razorpay payment gateway, Cloudinary media services, and secure user onboarding workflows.
- Implemented real-time ride booking, live chat, GPS location tracking, rider assignment updates, and instant status synchronization using Socket.IO.

Bitmax App| Attendance Marking (Live on Playstore)

- B Developed the Bitmax Employee Management App using Flutter, enabling attendance marking, leave management, and daily work report submission.
- Built responsive and user-friendly UI screens with GetX and MVC architecture for employee and admin workflows.
- Integrated REST APIs for attendance tracking, leave requests, work report management, and employee data synchronization.
- Implemented features such as digital ID card download, profile management, notifications, and secure user authentication.

Taste of bihar app – Food app (Live on playstore)

- Developed a Flutter-based food ordering application with user authentication, restaurant menu browsing, cart management, and order placement.
- Built responsive UI screens for food listings, product details, checkout, and order tracking, ensuring a smooth user experience.

EDUCATION

Master of Computer Application

.78.6%

Jul 2023– Jul 2025

GCET: Gautam Budhha Nagar, Uttar Pradesh

Bachelor of Computer Application

.69%

Apr 2020– March 2023

Bareilly College

CERTIFICATIONS

Android Development | Great Learning Academy

Certified in Java | Great Learning Academy

SKILLS

DesignUnderstanding, Team Collaboration, Problem Solving, Visual Design

Flutter, Dart, Flutter Framework, GetX, Provider, MVC Architecture, MVVM Architecture, MVP Architecture, REST APIs, JSON Parsing, Firebase Authentication, Firebase Cloud Messaging (FCM), Firestore, SharedPreferences, Hive, SQLite, State Management, Responsive UI Development, Widget Development, Cross-Platform Development, UI/UX Design, Material Design, API Integration, Asynchronous Programming, Git, GitHub, Postman, CI/CD Pipelines, GitHub Actions, Play Store Deployment, Firebase Crashlytics, Push Notifications, Performance Optimization, Debugging, Clean Code Practices, Agile Development, Team Collaboration, Problem Solving, Design Understanding, Visual Design.
